About me

I am a web designer and digital communications specialist with big ambitions and even bigger drive. I aspire to work for a company that I can be inspired by and that I can learn from. In my free time, I enjoy running, hiking, coding, photography, and playing with my two dogs. Although I am young, I am an old soul with a very distinct idea of where I would like to be in 10 years. I hope that by reading my resumé, you can understand a bit of who I am and how I can benefit you.
